## ***Life in The Stressed Lane?***

**Vita Burst Plus is PMT's Newest  
Water Soluble Multi -Vitamin Premix for  
Livestock**

**For Poultry, Swine,  
Calves, Dairy,  
Beef Cattle and  
Horses.**

Under stress, livestock production is reduced as feed intake and the inability to thrive reduces the animals performance and productivity. In today's intensive livestock production, animal stress is very common. Strategies to reduce stress include proper management and balanced nutrition. Poultry have relatively high vitamin requirements. Intensive poultry production systems place many stressors on the birds increasing their vitamin requirements. Available evidence indicates that supplementation of drinking water with soluble vitamins significantly improves performance and immune function of animals experiencing stress.

***Vita Burst Plus can help!***

*Serving the Animal Feed Industry Since 1980*

Registration: #981702

## Water Soluble Multi-Vitamin Premix for Livestock

Active Ingredient	(min) per kg	Active Ingredient	(min) per kg
Vitamin A	26,800,000 IU	Thiamine	1,600 mg
Vitamin D <sub>3</sub>	2,680,000 IU	Riboflavin	8,000 mg
Vitamin E	16,000 IU	Niacin	29,480 mg
Vitamin K <sub>3</sub>	2,680 mg	Pyridoxine	3,484 mg
Vitamin C	53,600 mg	Pantothenic Acid	16,000 mg
Vitamin B <sub>12</sub>	26,800 mcg	Folic Acid	1,072 mg
		Biotin	53,600 mcg

### Ingredients:

Sodium Bicarbonate, Potassium Bicarbonate, Citric Acid, Silicon Dioxide, Vitamin A, Vitamin D<sub>3</sub>, Vitamin E, Menadione Sodium Bisulfite Complex, Thiamine Mononitrate, Riboflavin, Pyridoxine Hydrochloride, Vitamin B<sub>12</sub>, Calcium Pantothenate, Folic Acid, Biotin, Sodium Ascorbate, Niacinamide.

### Feeding Directions:

Chickens, turkeys and swine: For continuous use with chickens and turkeys, dissolve 100 g (one pouch) in 535 L drinking water; or in 800 L for growing pigs and lactating sows; and 50 g in 800 L for gestating sows to prevent nutritional deficiencies.

**Automatic Proportioner:** Set the apparatus to distribute 30 ml of Vita-Burst Plus solution per 4 L of drinking water (1 oz/US gallon).

**Poultry:** Prepare the stock solution by dissolving 100 g (one pouch) in 4 L of water. This will fortify 535 L of drinking water.

**Swine:** Prepare the stock solution by dissolving 100 g (one pouch) in 6 L of water. This will fortify 800 L of drinking water.

**Calves:** Add 100 g (one pouch) in drinking water consumed daily by 200 calves (45 to 150 kg body weight each), for 4 to 6 days.

**Beef cattle:** Add 100 g (one pouch) in drinking water consumed daily by 40 animals (200 to 300 kg body weight each), for 4 to 6 days.

**Dairy Cattle:** Add 100 g (one pouch) in drinking water consumed daily by 30 cows, for 4 to 6 days.

**Horses:** Add 2.5 g of powder in drinking water consumed daily by each horse (400 kg body weight) for 4 to 6 days.

Use as the only source of drinking water. Directions for use must be carefully followed.
